

Baldwin Adapter & Spin-on Fuel/Water Separator Replace Element-Type Filter

Aluminum Adapter
Converts OEM engine filter base to allow the installation of a spin-on type filter.

Heavy-Duty, All-Metal Housing provides unequalled burst- and pulse-withstanding strength.

Heavy-Duty Baseplate is joined to the can with a double-rolled, tuck lock seam to resist leakage due to high pressure.

Easy-Opening Valve requires 88% less torque to open and close.

Get rid of fuel/water separators with fragile plastic bowls which can crack, leak and be difficult to replace. Baldwin's BF7925 spin-on filter with the FD7926 adapter deliver superior protection, added efficiency, plus problem-free durability. For details see your Baldwin distributor today.

Baldwin offers an adapter and spin-on fuel filter for easy conversion of OEM element filters and plastic bowls.

Baldwin Adapter & Spin-on Fuel/Water Separator Advantages

For applications previously using a PF7902 cartridge filter, Baldwin Filters is now offering a spin-on and adapter to make servicing the equipment easier.

A one time installation of Baldwin's FD7926 adapter converts the OEM's engine filter base to allow the use of the Baldwin BF7925 spin-on fuel/water separator.

The Baldwin FD7926 adapter and BF7925 filter require less room for servicing. The BF7925 provides better protection than the OE.
